BOYD & HINCKEN, 9 Tontine Building.

SOUTHERN DAILY MAIL LINE for Norfolk, Charleston, S. C., Petersburg, and Richmond.—The steamboats ALABAMA, KENTUCKY, and JEWESS, all boats of speed and accommodation, will commence running daily on the first April, between Baltimore, Norfolk, and Fortsmouth, leaving the lower end of Spear's wharf every afternoon at 3 o'clock, or immediately after the arrival of the cars from Philadelphia, and will arrive next morning at Portsmouth in time for the cars for Wilmington, and thence steamboats to Charleston. Returning will leave Portsmouth every day after the cars arrive from the South, and reach Baltimore next morning in time for the cars for Philadelphia.

These boats run in connection with the well known steam packets Georgia and South Carolina which leaves Norfolk every Saturday for Charleston, giving travellers a choice. They also run in connection with the James River boats to Petersburg and Richmond. Strangers are informed (old travellers know) that this is the cheapest and itost confortable route for nouthern travellers, as there are no changes from cars, steamboats, and stages in the dead of night, as on the Washington route. The company therefore hope the travelling part of the community will patronise them, in giving equal incilities and amperior comfort.

Passage and fare to Norfolk, \$8. JOHN W. BROWN, M264f

ABOLITION MOVEMENTS FOR 1839.

The Abolition movements preparatory to the Election.

Again the abolitionists are at their dirty work, and again they are holding private meetings promiscuously of blacks and whites to pass resolutions relative to the ensuing charter election. These meetings, of which the above out is a very correct representation, are held for various purposes. In the first place, they are to collect subscriptions; in the next, to enable the agitators to brawl about abolition; thirdly, to organize and increase their strength; fourthly, to distribute tracts and printed papers; and lastly, they enable the black loafers to sit side by side with white girls, and thus prepare to initiate them into the mysteries of amalgamation, which they say the Lord willbring about, in his own good time.

A meeting of this kind was again held last night, at which Tappan and his black and white tail held forth in a sort of desultory conversation with his

THE HUMAN HABE.

It is sectamly true, although not generally understood, that the roots of the hair always remain in the meet shundant profusion, and that there not only exists more roots in the skin of every individual than hairs growing from them, but in the worst cases of baldness, that they neithes perish nor are destroyed; and unless by accident or disease there should be a complete derangement for destruction of the parts which hourish and sustain them, we maintain, that they (the roots) continue healthy and vigorous, and are not destroyed, or even injured when the heir has fallen, from fevers, or from constitutional causes, either in the old or the young.—Existed from L. I. Beals & Co.s. tree-New accompanying Beals' Hoir Restorative.

MESSIB. L. L. BEALS & CO. invite those who are hald (in any degree,) or who are losing their hair, to come to their office, 164 Broadway, up stairs, and have their Hair Restorative applied without charge until the hair is re-tored.

They further offer to ester into a contract with any party to restore the hair under a penalty of a forfest of from two to five hundred dollars, said party being bound in a like sum, to be paid when the bair shall have been restored.

The original certificates of gentlemen of the highest standing in the city, may be seen at the office, 164 Broadway, showing incontestibly that Beals' Hair Restorative has restored and will restore the human hair; and if these are not sufficient to ratiefy the incredulous, (of whom there are a great many, on account of the numerous humbugs that have been impudently palmed upon the community,) ocular demonstrative will be given to those who may call there.

The Ladies are especially recommended to the use of Beals' Hair Restorative will keep it in excellent condition and preserve a full head of hair in health and beauty to the latest period of life. Free S3 per Jar.

The Maine Question!-Preparation for War! @ At this mament, when we are perhaps on the eve of a War with England, it becomes the duty of every one to enquire how far this may personally concern numself. It is a self-evi-

Off- At this mament, when we are perhaps on the ere of a War with England, it becomes the duty of every one to enquire how far this may personally concern numetif. It is a self-evident fact, that an enormous advance on English manufactured goods will be one of the consequences of such an event. And in no article will it be more heavily feet than on English cloths. It is therefore hearily nreessary to point out the policy of all and sundry providing themselves with a sufficient supply of clothing. PRILIPS well known Cash Taitoring Establishment, 106 William, corner of John street, presents an opportunity of obtaining a first rate garment, equal to any, and surpassed by none, in the city, for materials, make, and price.—The astonishing patronage which this establishment has experienced, is a sufficient indication of public judgment. And the proprietor, having made such arrangements for the easuing season as will, he hopes, insure and merit a continuance of such. The system adopted is alone peculiar to this establishment. Purchases are made direct from manufacturers in England, thereby avoid g the accumulated profits of importers and jobbers, consequently reducing the price of the article to such an extent as to enable him to employ none but first rate workmen; in consequence of buying at second or third hands. And those establishments which give long credits, as a result, incur many unavoidable losses, and are obliged to make their cash customers suffer sufficient profits for running such risks.

The advertiser deems it unnecessary on his part to give a list

ROWAND'S

ALTERATIVE,
OR COMPOUND SPIRITUOUS EXTRACT OF SARSAPARILIA,
Entirely devoid of Mercenry in any form whatever, for Chronic
Diseases, or complaints of long standing.
(G-An "alterative medicine" is one which effects an entire
change in the system, without manifesting any smalle mode of
action. It is to be resorted to in almost all Chronic or longslanding complaints, with a view of subverting the long accustomed diseased action, and of substituting for it, the new and
peculiar influence of the medicine itself, which must be made to
harmonize with the operations of nature in health; so that
after the use of the medicine for a period longer or shorter, according to the duration of the disease and prospects of recovery,
it may be laid aside and the health gradually become completeely re-established.

After a long and cautious consideration of the designs to be
fulfilled in the treatment of the following affections, (some of
which are regarded as the most fearful tills of existence,) we have
at length prepared the "Alterative Extract," and carneolly adrise it to such invalide for whom it is expressly intended, as
possessing all the curative principles that can be placed within
their ranch. The diseases which yield to the "alterativetreatment, are those of a Chronic form, and such as depend special
impetrity of the blood—as

Bereafalls, or King's Evil Syphilis—and all Venercal Disease.

imperity of the blood—as

Scrafula, or King's Evil Syphilis—and all Venereal Diseases.

Mercurial Diseases, brought on by the improper use of Mercury—Consumption—Liver Complaint—Jaundies—Agus Cahe—Rheumatism—Gout—Scurvy—Cancer—Affections of the Skin, as Tetter, Eiles, Ring Worms, Scald Head, Rich, Pimples on the Face, Sc. No medicine is more efficient as a "Spring Purifier," and to promote recovery after an attack of acute disease.

two table spoonsful of this Spirituous Extract to a pint of simple Syrop.

The mode of taking the medicine in all the above complaints will be the same—the object being "to effect a change in the system" in each case.

J. R. R. C. do not hesitate to assure the public that from the poculiar mode of the preparation as referred to above, one Bottle of the "ALTERATIVE" contains the Emence of from four to six Bottles of the preparation of the Samapanil. La! This single fact guarantees for the Alterative an extensive and salutary influence wherever it becomes known.

For Sale by J. O. FAY, Agent, at Milnor's Franklin Home-Drug Store, No. 198 Broadway, New-York; and at 127 Bowery, 114 Ganal Street, &c. &c.

THE HUMAN HAIR. GF Personal appearance is influenced by nothing more materially than a luxurisat crop of har. The loss of the hair in most cases is occasioned solely through neglect of those means which really do exist to preserve it. To prevent its decay, and accomplish its complete restoration, is the object to which Mr. Clirchugh has for 12 years directed him attention. The growth and organization of the hair, its structure, as connected with the anatomy of the skin has been his poculiar study. To attain full information on this subject, he attended the lectures of the most celebrated physiologists in Losdon and Edinburgh, dissected the different layers of the skin, examined the nerves, blood-ressels and builts connected with both skin and hair, and by these means discovered the causes which occasion baldness, and produce gray hair. Having obtained a perfect knowledge of all these subjects, and after numerous experiments on heads in different stages of baldness, and varying them according to the gonstitution of the individuals, the result was the production of his celebrated

TRICOPHEROUS, or MEDICATED COMPOUND. It is composed of ingredients of the most visifying powers, combined with those which will constitute the composed of the production of the celebrated

TRICOPHEROUS, or MEDICATED COMPOUND. It is composed of ingredients of the most visifying powers, combined with those which will promote the circulation give a healthy action to the skin, and restore the relaxed functions of the nerves, blood-ressel and absorbents. It will thus be evident that endy by such means can the restoration of the hair ever be effected.

In proof of the confidence which CLIREMUGH has in rester ing the hair, he is prepared to treat with any gentleman who would wish to have the Conpound applied by himself at his Hair Cutting Rooms. This will be done without any charge mailthe hair is restored. Individuals of the highest respectability who have had their hair restored can be referred to, who will testify to the great efficacy of the Compound.

Ladies should observe that wherever the has hair become thin or broken—often caused by tying the hair too light—this Compound only can restore it. In such cases, all oils, greases, decorany flatty matter is persicious, and can only be recommended through the gressest ignorance.

One application of the Tricopherous is sufficient to remove Searf and Dandriff from the hair and dissipate all impurities from the skin.
